Board Member	Chuck Barrows K7BVT barrows4967@msn.com	244-4967

Apparently there have only been 4 meteorites found in the entire state of Oregon. Dick also encourages young people to attend so bring grandkids, great grand kids or any neighborhood kids that are wandering around with rocks in hand. Gene put this program together while recovering from back surgery last weekend.

Tentative program next month by Rick Campbell KK7B on Analog Modulation Experiments. Chuck for Gene Single K7IUN

Program

TERAC Meeting:

- **Time:** Jan 8th, 2008, 7:30PM
- **Place:** TVF&R Training Building
20665 SW Blanton St.
Aloha, OR
- **Talk-In:** 443.65 MHz Simplex

TERAC Meeting

Program for the January TERAC meeting will be by Dick Pugh of the Cascadia Meteorite Laboratory of Portland State University. Check out the lab's web site at <http://meteorites.pdx.edu/index.htm>. Dick encourages attendees to bring any rocks in they think maybe meteorites.

FROM THE PRESIDENT'S LAZY BOY CHAIR

As most of you probably know, Roger fell from a ladder last month seriously injuring his heel. He had surgery last Wednesday and despite his best efforts was released or kicked out of the hospital before the staff New Years party. He expects to be laid up for 3 months. You can reach him on his cell or temporary email listed in the Officers box above.

Fred Telewski WA7TZY

We now have Fred WA7TZY and his wife Susan WB7BST on our email distribution.

Old timers may remember the excellent presentations Fred made at TERAC meetings on his EME work and space communications while he was working in the FDI group. The Telewskis' live in Woodinville Washington and as you can see from their web site <http://web.me.com/sdt49> they are involved in some pretty impressive amateur radio projects. - Chuck Barrows K7BVT

Correction on Dana article

Dana asked that we make sure that David Kornreich gets credit for the YouTube video mentioned in last month's newsletter. David flew down to Aerocibo (along with two cats) from Humbolt College in California in his own Cherokee Arrow, and spent about a year here observing small galaxies and studying the dynamics of their formation.

Upcoming Hamfairs and Events
