Update on Cascadia Meteorite Laboratory Activities

Dick Pugh, Cascadia Meteorite Laboratory

The presentation Dick did for TERAC in January 2009 was very popular. At that time only 4 meteorites had been found in the state of Oregon. Dick will bring us up to date on meteorite discoveries since then and the activities of the Cascadia Meteorite Laboratory, <http://meteorites.pdx.edu/index.htm>

Dick is a long-time meteorite enthusiast, educator, and field scientist who graduated from Portland State University and went on to teach science for 30 years at Cleveland high school in Portland. He also attended Benson high school with our own Roger McCoy.

The February meeting is being cancelled because of the conflict with Valentines Day. Dave Haupt, W8NF will be giving a presentation on HF amplifiers in MRI at the March meeting. We may have a presentation from the Oregon Amateur Television Association when they get their repeater back on the air in the spring. I am trying to arrange for presentations

on the HVDC intertie and ham radio digital communications. Suggestions and leads for speakers on these or other topics appreciated.

Chuck, K7BVT
